2018 Teacher Academy for Education Professionals

Cultivate leadership capacity by exploring multiple dimensions of self and culture while learning to weave Computer Science and Social-Emotional Learning into the classroom

Goals, Value and Impact of the Teacher Academy

GOALS

1. Prepare teachers to weave Computer Science and Social-Emotional Learning into their classrooms

2. Build a Professional Learning Community prepared to leverage corporate and industry professionals to enhance K12 education

VALUE

1. Renewed sense of purpose in teaching

2. Network of leaders and change-makers in the education profession

3. Collaboration with corporate partners to align K12 instruction to future workforce needs

IMPACT

Sponsoring organizations will gain a more agile and skilled education professional who can:
- Increase teachers' pedagogical knowledge
- Support more rigorous and creative project based learning,
- Accelerate students' 21st century skill development
