This shows them the benefits of eliminating these roadblocks in ways they cannot deny. Use the Proactive Barrier Strategy to help customers feel more comfortable about discussing hidden barriers to employment they may want to hide. This means barriers that used to stay hidden will now surface so you can work on them faster. Do a Strengths Based Change Assessment and mobilize the hidden strengths of your customers to address their barriers? This gives them the

confidence they need to take on their obstacles to employment progress. No program can eliminate every barrier, but it is difficult to get people to go to referral resources.
